

# MOCKTAIL GAME

## How to play:

### *1. Create the mocktails:*

- Someone (the host) prepares a few mocktails in advance, making sure the ingredients are kept secret from the players.
- Alternatively, you can have teams or individuals make their own mocktails.

### *2. Guessing Game:*

- One player drinks a mocktail (either blindfolded or not) and tries to guess the ingredients.
- The other players can ask yes-or-no questions to help them guess the flavors or ingredients in the drink.
- Each correct guess earns points, and the player who guesses the most ingredients correctly win.

### *3. Mocktail Challenges:*

- Another variation is to include challenges where players have to quickly mix their own mocktails based on a set of ingredients or a theme (like a tropical or berry mocktail).
- Players are judged on creativity, taste (if you have taste-testers), or presentation.

### *4. Mocktail Trivia:*

- You could add trivia questions about mocktails, fruit juices, or cocktails for extra fun. Each correct answer could give the player an advantage or more time to guess ingredients.

## What you need:

- A list of mocktail recipes (you can pick a few recipes or create a few new ones)
- Ingredients to make mocktails (e.g., fruit juices, soda, syrups, etc.)
- Cups or glasses to serve drinks
- Blindfolds (optional, for added fun)
